

We Italdesign as engineers of ideas – **Ideneers** – promote, actively support and constantly improve an effective quality management system, tailored to the needs of our stakeholders, meeting applicable requirements.

“We inspire the world with our products” and “we make ideas to lead the change”: these are the principles and the vision that our Top Management has adopted in defining its **Policy for Quality**:

- Satisfying business **innovation** needs through strong and flexible processes;
- **Diversifying** performances according to the requirements of all Italdesign’s customers both in the open market and within the Volkswagen/Audi Group allowing a **profitable growth**;
- Ensuring a **reliable** supply chain, consistent with our company values and able to support our business model;
- Fostering the development of **competences** as well as of effective and efficient methods;
- Inspiring **our people** to value and take pride in their contribution to excellence;
- Giving top priority to **product compliance and safety** throughout the entire life cycle by ensuring adherence to established processes as well as human rights, ethics, integrity principles, regulatory, legal, quality and sustainability requirements defined for all Italdesign companies.
